## SIR FANGAR'S RIDDLE

- Fluminox has 8 Fire CHI orbs as the battle begins.
- Laval and his 7 friends come to Fluminox to get Fire CHI.
- If each of the Chima heroes takes one Fire CHI orb, how many orbs does Fluminox have left?

The answer is the temperature (in degrees Celsius) at which water freezes!

Answer: 0 degrees Celsius

Now that he's charged up with CHI energy, Sir Fangar thinks he finally has the power to freeze Fluminox the Phoenix King. But first he has to know the temperature at which water freezes. Can you solve Sir Fangar's riddle to get the answer?

Yank the ripcord horizontally – you can pull harder and get your Speedorz up to maximum speed.

You can even do new maneuvers. Adjust one of the arms to touch the ground and you can make your Speedorz do a curve. But don't try it at full speed or your Speedorz may miss the turn and keep going straight.

# INSIDE THE MOS EISLEY CANTINA!

## 1 CANTINA BAND

Led by the Kloo horn tunes of Figrin D'an, the Modal Nodes are the cantina's resident band. The giant brains of its Bith members make them among Tatooine's best musical performers. Gratuities welcome.

## 2 HAN SOLO™

Need to transport cargo while avoiding Imperial entanglements? Thanks to the nearby spaceport, the cantina is full of smugglers looking to make some quick credits with no questions asked. Tourist tip: check out their starships before you hire them.

## 3 GREEDO™

Whether you're trying to find a long-lost friend or hunt down a long-lost enemy, you can always use the services of a professional bounty hunter. Or try an unprofessional one instead – they're much cheaper!

## 4 BAR

The cantina's bar is kept well-stocked with exotic beverages from many worlds. If you're hankering for blue milk or the ultimate expensive luxury of a glass of water, then this is the place for you.

## FEELING THIRSTY ON SUNNY TATOOINE?

Stop in at the Mos Eisley Cantina! Located in the spaceport town of Mos Eisley, it's a real hot spot for mingling with short-tempered beings from all around the galaxy. Keep an eye or three out for some of its most famous inhabitants!

### 5 DROID DETECTOR

Who can enjoy the atmosphere with all of that beeping and clanking going on? A droid detector at the door keeps the paying customers in and the Droids out.

### 6 DEWBACK

Hey, taxi! Convenient passenger services are provided by the native dewback riding lizards. Special discount rates for Imperial sandtroopers. In fact, just take the dewback, Mr. Trooper. Please don't blast us.

### 7 LANDSPEEDER

Not planning to come back to Tatooine any time soon? We can't blame you. Sell off your used landspeeder

to one of our entirely honest and trustworthy local citizens. It's a better deal than leaving it to be disassembled by Jawas!

### 8 MOISTURE VAPORATOR

Moisture vaporators draw tiny amounts of liquid out of the desert air and convert it into water. These devices may not be pretty, but we couldn't live without them – literally!

[LEGO.com/turtles](http://LEGO.com/turtles)

## LEGO® Club sat down with LEGO Model Designer Bjark Lykke Madsen to ask him what went into designing the Big Rig Snow Getaway!

### HOW MANY SETS HAVE YOU WORKED ON BEFORE?

I have designed 98 LEGO sets before this one.

### WAS THIS SET DIFFICULT TO DESIGN? WERE THERE UNIQUE CHALLENGES?

The biggest challenge was to design the trailer for the Big Rig. In order to create a model that was not only great looking, but fun to play with, including fun functions and details inside the trailer was a must. I tried to put as many things in the Big Rig as I could, including a computer, minilab, a weapons rack, and ooze barrels. At the same time, you need to be able to open up the trailer to play inside and the model needs to be stable for when you press the sides of the trailer or place minifigures on the roof. Including all these requirements at the same time was a great challenge.

### WHAT DID YOU USE AS REFERENCE MATERIAL TO BEGIN DESIGNING THE SET?

I used concept art from the movie. I had this awesome concept picture that showed the Big Rig in the snow. That was great inspiration.

### DO YOU SKETCH A DESIGN FIRST, OR DO YOU BEGIN BUILDING WITH LEGO BRICKS TO CREATE THE DESIGN?

In this case, no sketching was needed because I had the concept art to look at, so I just started building right away. When we have no reference material, sketching is a good way to start so you have an idea of what to build and which functions to include before you start spending a lot of time building.

### YOU DESIGNED A VEHICLE THAT FITS THE TEENAGE MUTANT NINJA TURTLES, HOW DO YOU DESIGN MODELS TO FIT MINIFIGURES INSIDE?

In the case with Teenage Mutant Ninja Turtles movie sets, it was a special challenge to make the new Teenage Mutant Ninja Turtles minifigures fit the models, because they have huge turtle shells and weapons holders on top of that. The good thing was that we knew this early on, so we had the time to design the models with extra space inside. In general, we just keep on redesigning the models until the minifigures fit.

### WHAT IS YOUR FAVORITE PART ABOUT YOUR MODEL (OR ABOUT THE TEENAGE MUTANT NINJA TURTLES LINE IN GENERAL?)

All the models have great aspects to them, some have great details, some have great functions, so it is hard to say. But I think maybe the Turtle Lair Invasion is my favorite. I just like the Teenage Mutant Ninja Turtles' underground headquarters so much, and always have, ever since I first read the comic books way back in the 1980's.

## TIP #1

To battle the Splitter Beast, upgrade to the 'Projectile Power Up,' by collecting 16 Hero Points in total.

## TIP #2

Increased firepower is no good unless you have the mobility to go with it! Upgrade your jump with 16 Hero Points to get the 'Suspension Release' ability. With this higher jump, you can dodge enemies and collect more pickups.

## TIP #3

To temporarily boost your abilities, collect as many Upgrade Pickups as you can! They look like shiny cogs. When you collect these you will be able to perform triple air jumps and even score awesome secondary weapon attacks!

# BATTLE WITH A DRAGON!

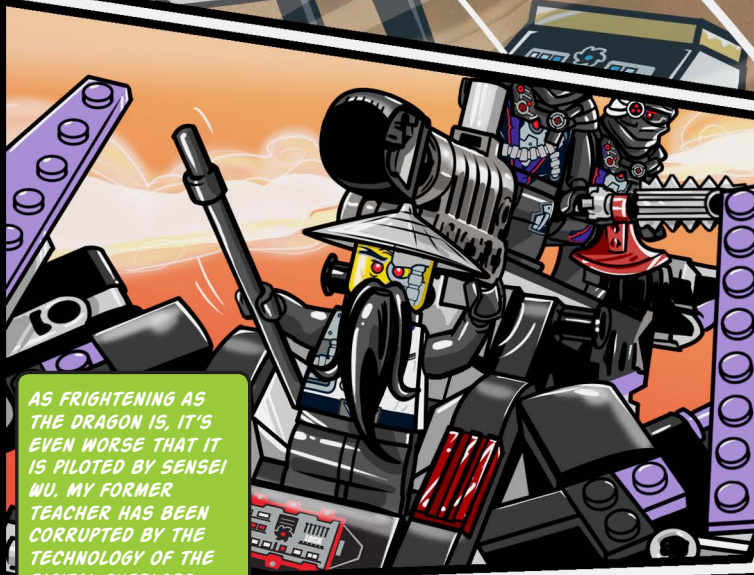

MY NAME IS ZANE. I'M A NINDROID, SUPER-STRONG, FAST, TOUGH, AND CALM IN JUST ABOUT ANY SITUATION.

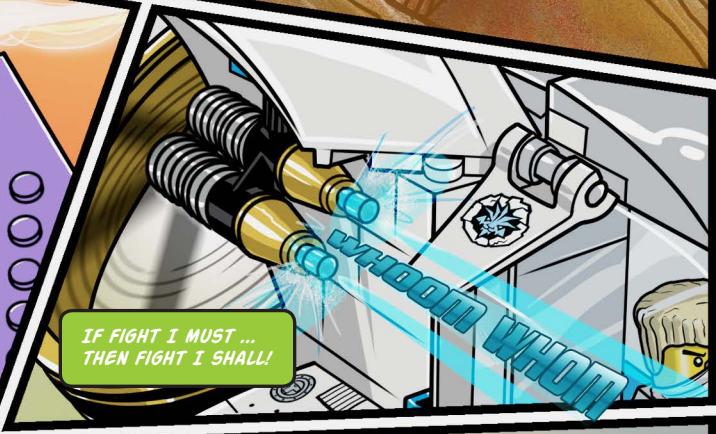

**LEGO** NINJAGO  
Masters of Spinjitzu

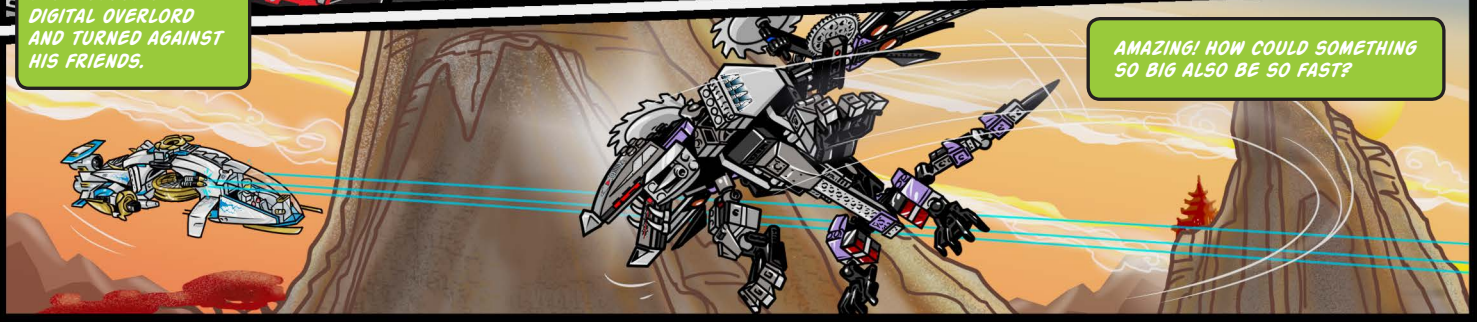

BUT IT IS HARD TO STAY CALM WHEN YOU ARE FACED WITH SOMETHING LIKE THE MECHDRAGON!

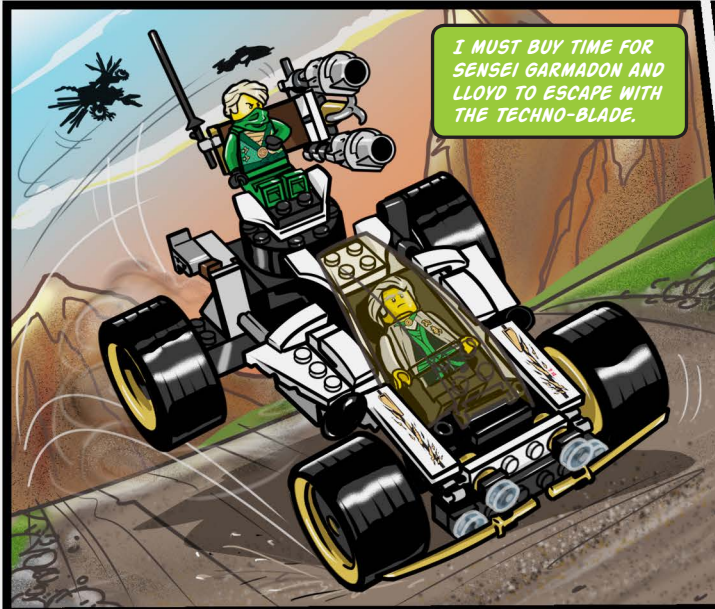

AS FRIGHTENING AS THE DRAGON IS, IT'S EVEN WORSE THAT IT IS PILOTED BY SENSEI WU. MY FORMER TEACHER HAS BEEN CORRUPTED BY THE TECHNOLOGY OF THE DIGITAL OVERLORD AND TURNED AGAINST HIS FRIENDS.

IF FIGHT I MUST ... THEN FIGHT I SHALL!

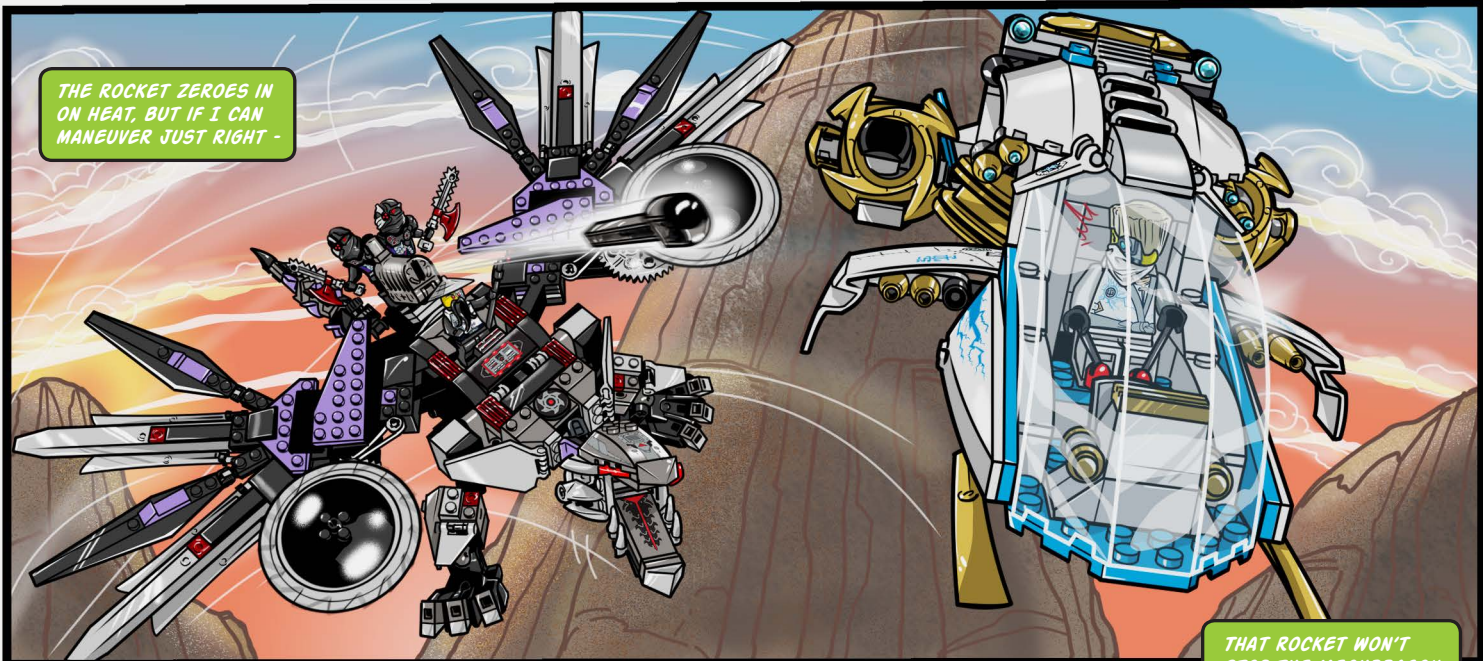

AMAZING! HOW COULD SOMETHING SO BIG ALSO BE SO FAST?

I MUST BUY TIME FOR SENSEI GARMADON AND LLOYD TO ESCAPE WITH THE TECHNO-BLADE.

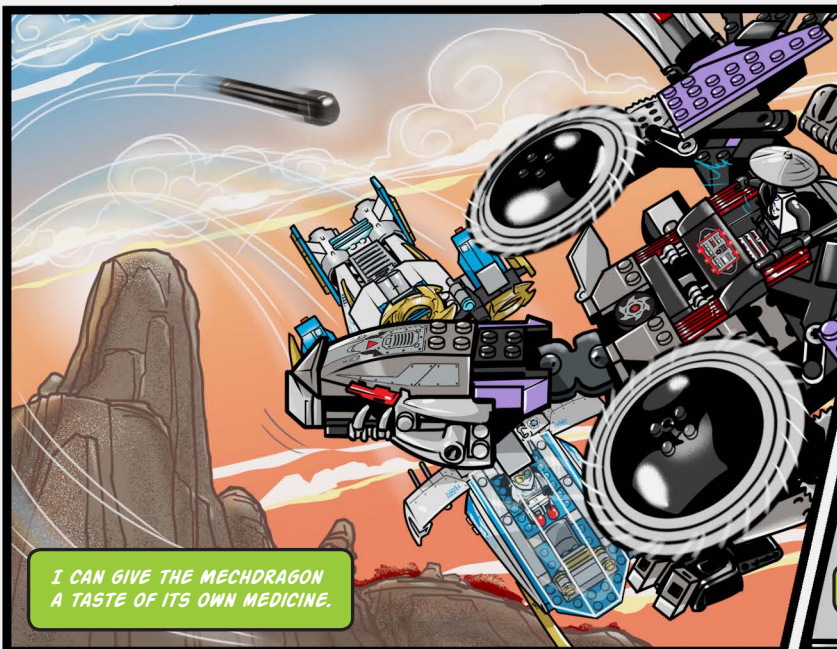

BUT, TO DO THAT, I MUST SURVIVE. AND THE MECHDRAGON WILL NOT MAKE THAT EASY, UNLESS ...

THE ROCKET ZEROES IN ON HEAT, BUT IF I CAN MANEUVER JUST RIGHT -

THAT ROCKET WON'T STOP THE MECHDRAGON ... BUT WILL GIVE LLOYD AND GARMADON THE TIME TO GET AWAY. AS FOR ME - THE MECHDRAGON AND I WILL MEET AGAIN. COUNT ON IT.

I CAN GIVE THE MECHDRAGON A TASTE OF ITS OWN MEDICINE.

THE END ... FOR NOW
